The Unique and Not to Be Missed

Having a car and leaving the center of town to explore this vineyard region is really worth the expense. We drove out to Central Coast Trail Rides located in nearby Creston, CA (a scenic 25 minute excursion) and took a trail ride. I can think of no better way to truly see the beauty of the area than on the back of a horse.

Owners Crystal and Brian have poured their hearts into this ranch and it shows. The barn, the surroundings, the horses themselves are all beautifully taken care of. The tour takes you up into the ranch, over some hills, by a pond with plenty of time for pictures of sweeping vistas. This is not horses going nose to butt throughout the ride but rather you are controlling your horse and even riding side by side with friends. Children as young as eight years old may participate in a ride.

Even better might be a stay and ride at their beautiful ranch where they have outstanding accommodations for both large (16 people) and small groups. Contact the ranch for details.
